Index to Volume 4
Subjects

Adaptation, second-order neural responses after contralateral vestibular nerve section, 101
  vestibular nerve sectioning followed by contralateral second-order neural responses, 101
Adenitis(itides), cervical, in children (symposium), 416
Adenoid lymphocyte culture, interferon production by, 325
Adult(s), epiglottitis in, 393
  sinusitis, acute, in (symposium), 422
Age factor(s), *see also* Adult(s); Child(ren); Infant(s)
  vestibular hair cell, aging of, 151
Airway, obstruction by laryngeal coccidioidomycosis in child, 367
Alpha-interferon, production in tonsil and adenoid cultures, 325
Alveolar soft-part sarcoma of tongue, 363
American Journal of Otolaryngology, new editor (editorial), 79
Aminoglycoside(s), ototoxicity in chick basilar papilla, 174
Anaerobe(s), in serous otitis media in children, 389
Anatomy, laryngeal, preepiglottic and paraglottic spaces, 81
Anomaly(ies), congenital, sclerosteosis, 1
Anosmia, clinical evaluation of (symposium), 252
Antibacterial(s), pneumonia treatment in infants and children (symposium), 431
Antibiotic(s), prophylaxis in surgical procedures (symposium), 433
  in upper respiratory tract infection treatment (symposium), 414
Antimicrobial(s), pneumonia treatment in infants and children (symposium), 431
  in upper respiratory tract infection treatment (symposium), 412
Antigen(s), in autoimmune diseases, 187
Arteriosclerosis, vertebro-basilar, with membrane rupture causing sudden deafness, 27
Arteritis(itides), head and neck manifestations, 187
Arthritis(itides), rheumatoid, head and neck manifestations, 187
Asialorrhea, 283
Aspiration biopsy, *see under* Biopsy(ies)
Audiography, in predicting recovery from sudden idiopathic hearing loss, 161
Audiometry, four-alternative auditory feature (FAAF) test, 342
Auditory middle latency response(s) in guinea pig, 116
Auditory testing of children (letter), 371
Auricle(s), hematomas of, continuous portable vacuum drainage of, 141
Autoimmune disease(s), head and neck manifestations of, 187

Bacterium(a), in serous otitis media in children, 389
Bacteroides melaninogenicus, in serous otitis media in children, 389
Behçet's disease, head and neck manifestations, 187
Bell's palsy, 347
Biopsy(ies), aspiration, fine-needle, of solitary thyroid nodule, 43
Blood, clots, continuous portable vacuum drainage of auricular hematomas, 141
Bone(s), dysplasia of, sclerosteosis, 1
  temporal, cochlear duct volume and stria vascularis volume, 113
    high-resolution computed tomography of in evaluating middle ear disease, 107
    meningioma of extending to neck, 297
    sclerosteosis of, 1
Brainstem, auditory responses in guinea pig, 116

Cancer(s), *see also* Carcinoma(s)
Candidiasis, oral (symposium), 418
Carbonic anhydrase, localization in inner ear, 33
Carcinoma(s), *see also* specific types
  laryngeal, preepiglottic and paraglottic spaces and, 81
  in thyroid nodules, solitary, 43
Caries, dental (symposium), 418
Catecholamine(s), carotid-body-like cells in recurrent nerve, 334
Cell(s), aging of vestibular hair cells, 151
  carbonic anhydrase localization in inner ear, 33
  glomus, carotid-body-like tissue in recurrent nerve, 334
  hair, of cochlea, cytodifferentiation of, 375
  olfactory receptor, mechanisms of (symposium), 238
Cellulitis(itides), orbital, with sinusitis in children (symposium), 424
Cerebrospinal fluid pressure, transmission via cochlear aqueduct and endolymphatic sac, 273
Chemical sense(s), clinical evaluation of smell (symposium), 252
  clinical evaluation of taste (symposium), 257
  disturbances of (symposium), 224
Chemoreceptor(s), carotid-body-like tissue in recurrent nerve, 334
Chemosensory stimulation of taste and smell (symposium), 246
Chick(s), embryos of, ototoxicity of aminoglycosides in, 174
Child(ren), airway obstruction by laryngeal coccidioidomycosis, 367
  auditory testing (letter), 371
  cervical adenitis in (symposium), 416
  pneumonia treatment in (symposium), 431
  serous otitis media in, bacteriologic features of, 389
  sinusitis, acute, and orbital complications in (symposium), 424
Chinchilla(s), carbonic anhydrase localization in inner ear, 33
Cholesteatoma(s), infected, with chronic suppurative otitis media (symposium), 428
Coccidioidomycosis of larynx causing airway obstruction in child, 367
Coccus(i), anaerobic, in serous otitis media in children, 389
Cochlea, aqueduct, cerebrospinal fluid pressure transmission via, 273
  carbonic anhydrase localization in, 33

cis-dichlorodiammine platinum ototoxicity, 16
fluid and electrolyte pathways, 400
hair cell cytodifferentiation, 375
macromolecular tracers in, 400
membrane rupture, bilateral, causing sudden deafness, 27
morphometry of pallid mutant mouse inner ear, 261
Cochlear duct, volume of, and stria vascularis volume, 113
Computed tomography, high-resolution, of temporal bone for middle ear disease, 107
Congenital anomaly, *see under* Anomaly(ies)
Crista(e), aging hair cells in, 151
Cytodifferentiation, of cochlear hair cells, 375
Cytomegalovirus(es), inner ear infections with, 347

Deafness, *see also* hearing loss(es)
sudden, rupture of Reissner's membrane causing, 27
Dermatomyositis, head and neck manifestations, 187
Diabetic retinopathy, hearing losses in, 342
Cis-dichlorodiammine platinum (II), ototoxicity of, 16
Drainage, draining syringes for surgery, 435
(letters), 445
vacuum, continuous portable, of auricular hematomas, 141
Drug(s), in upper respiratory tract infection treatment (symposium), 412
Dry mouth, 283
Dysgeusia, clinical evaluation of (symposium), 257

Ear(s), *see also* specific parts and functions
inner, aminoglycoside ototoxicity in chick embryo, 174
carbonic anhydrase localization in, 33
morphometry in pallid mouse, 261
viral infections of, 347
middle, eustachian tube pathophysiology, 123
high-resolution computed tomography in evaluating disease of, 107
Electrolyte(s), cochlear, macromolecular tracers to delineate, 400
cis-dichlorodiammine platinum ototoxicity, 16
Electron microscopy, carotid-body-like cells in recurrent nerve, 334
of cochlear fluid and electrolyte pathways, 400
Electronystagmography, in predicting recovery from idiopathic sudden hearing loss, 161
Embryo(s), aminoglycoside ototoxicity in chick, 174
cochlear hair cell cytodifferentiation in mouse, 375
Endolymph, macromolecular tracers in cochlea, 400
volume of, and stria vascularis volume, 113
Endolymphatic sac, cerebrospinal fluid pressure transmission via, 273
Epiglottitis(itides), adult, 393
Eustachian tube, pathophysiology of, 123
Eye(s), orbital complications with sinusitis in children (symposium), 424

Fibrous lesion(s), benign, proliferative myositis in head and neck, 442
Fine-needle aspiration biopsy, *see under* Biopsy(ies), aspiration
Fluid(s), cochlear, cis-dichlorodiammine platinum ototoxicity, 16
macromolecular tracers to delineate, 400
Food aversion, olfaction in (symposium), 250
Four-alternative auditory feature test, in diabetic retinopathy, 342

Gamma-interferon, production in tonsil and adenoid cultures, 325
Genetics, *see also* anomaly(ies), congenital
Glioblastoma multiforme metastatic to neck, 74
Glomus cells, carotid-body-like tissue in recurrent nerve, 334
Granuloma(s), faciale, intranasal, 184
thorium dioxide-induced cervical, 437
Granulomatosis(es), Wegener's head and neck manifestations, 187
Guinea pig(s), auditory middle latency responses in, 116
cis-dichlorodiammine platinum ototoxicity, 16
hair cell aging in, 151
Gustation, as active sensory process (symposium), 246
chemosensory disturbances of (symposium), 224
clinical evaluation of (symposium), 257
in mammals (symposium), 234

Hair cell(s), aminoglycoside ototoxicity in chick embryo, 174
cochlear, cytodifferentiation of, 375
cis-dichlorodiammine platinum ototoxicity, 16
vestibular, aging of, 151
Head, proliferative myositis in, 442
Hearing loss(es), *see also* Deafness
in diabetic retinopathy, 342
sudden, idiopathic, predicting recovery from, 161
Hematoma(s), auricular, continuous portable vacuum drainage of, 141
Hemorrhage, pharyngeal, induced by thorium dioxide, 437
High-resolution computed tomography, *see under* Computed tomography
Histochemistry, carbonic anhydrase localization in inner ear, 33
History, of stapedectomy, 131
(letters), 217
Human pheromone (symposium), 250
Hydrops, macromolecular tracers in cochlea, 400
stria vascularis volume and cochlear duct volume, 113
Hypogeusia, clinical evaluation of (symposium), 257
Hyposmia, clinical evaluation of (symposium), 252

Idiopathic sudden hearing loss, predicting recovery from, 161
Immune response(s), head and neck manifestations of autoimmune disease, 187
Immunodeficiency disease(s), head and neck manifestations, 187
Infant(s), pneumonia treatment in (symposium), 431
Infection(s), dental (symposium), 418
of neck, deep (symposium), 420
oral mucosal (symposium), 418
otolaryngologic, symposium on (symposium), 411
periodental (symposium), 418
prophylaxis in surgical procedures (symposium), 433
of respiratory tract, upper, pharmacologic considerations in treatment (symposium), 412
viral, of inner ear, 347
Inner ear, aminoglycoside ototoxicity in chick embryo, 174
carbonic anhydrase localization in, 33
morphometry in pallid mouse, 261
viral infections of, 347
Interferon(s), production in tonsil and adenoid cultures, 325

Kanamycin, ototoxicity in chick basilar papilla, 174

Laryngectomy, olfactory perception mechanisms (symposium), 238
preepiglottic and paraglottic spaces in carcinoma spread, 81
Larynx(ges), carcinoma spread in, preepiglottic and paraglottic spaces and, 81
coccidioidomycosis of causing airway obstruction in child, 367
ventricle, plain roentgenography in evaluating vocal cord dysfunction, 92
Latency, auditory middle latency responses in guinea pig, 116
Leiomyoma(s), of trachea, 144
Lymph node(s), cervical adenitis in children (symposium), 416
Lymphocyte(s), tonsillar and adenoidal, interferon production by in culture, 325

Macromolecular tracer(s), in mammalian cochlea, 400
Macula(e), aging hair cells in, 151
Mass(es), of neck, glioblastoma multiforme, 74
Median sagittal plane, spatial attributes of stimulus frequency in, and sound localization, 165
Ménière's disease, macromolecular tracers in cochlea, 400
Meningioma(s), of temporal bone extending to neck, 297
Middle ear, disease of, high-resolution computed tomography in evaluation, 107
eustachian tube pathophysiology, 123
Mixed connective tissue disease, head and neck manifestations, 187
Morphometry, of inner ear of pallid mouse, 261
Mouse (mice), cochlear hair cell cytodifferentiation in, 375
pallid mutant, inner ear morphometry, 261
Mucosa(e), olfactory, mechanisms of (symposium), 238
Mumps virus, inner ear infections with, 347
Myositis(itides), head and neck manifestations, 187
proliferative, in head and neck, 442

Nasal obstruction, granuloma faciale, 184
Neck, cervical adenitis in children (symposium), 416
glioblastoma multiforme metastatic to, 74
granuloma of induced by thorium dioxide, 437
infections of, deep (symposium), 420
meningioma of, extending from temporal bone, 297
proliferative myositis in, 442
Neoplasm(s), *see also* Cancer(s), Carcinoma(s), Tumor(s)
Nerve(s), aging vestibular hair cells and degeneration, 151
recurrent laryngeal, carotid-body-like tissue in, 334
trigeminal, function evaluation (symposium), 252
vestibular, section of, contralateral second-order neural responses after, 101
Netilmycin, ototoxicity in chick basilar papilla, 174
Neuritis(itides), vestibular, 347
Neurofibromatosis, meningioma extending to neck, 297
Neurogenesis, vertebrate olfactory system regeneration (symposium), 228
Neuron(s), olfactory, regeneration of in vertebrates (symposium), 228
regeneration in vertebrate olfactory system (symposium), 228
second-order responses after contralateral vestibular nerve section, 101
taste, mammalian (symposium), 234
Neurotrophic interaction, cytodifferentiation of cochlear hair cells, 375
Nucleus(i), parabrachial, in gustation of mammals (symposium), 234
of solitary tract, in gustation of mammals (symposium), 234

Obstruction(s), airway, by laryngeal coccidioidomycosis in child, 367
Odor identification, clinical evaluation of (symposium), 252
Odor memory, uses of (symposium), 250
Odor threshold, clinical evaluation of (symposium), 252
Olfaction, as active sensory process (symposium), 246
chemosensory disturbances of (symposium), 224
clinical evaluation of (symposium), 252
human uses of (symposium), 250
mechanisms of (symposium), 238
Olfactory discrimination, mechanisms of (symposium), 238
Olfactory system, regeneration of in vertebrates (symposium), 228
Orbit(s), complications with sinusitis in children (symposium), 424
Otitis media, chronic suppurative, and infected cholesteatoma (symposium), 428
serous, in children, bacteriologic features, 389
Otolaryngologist(s), longevity of (letter), 147
Otoconia, morphometry of pallid mutant mouse inner ear, 261
Ototoxicity, of aminoglycosides in chick basilar papilla, 174
of cis-dichlorodiammine platinum (II), 16

Paraglottic space(s) in laryngeal carcinoma spread, 81
Pathology, laryngeal, preepiglottic and paraglottic spaces and carcinoma, 81
Pathophysiology, of eustachian tube, 123
Perilymph, cerebrospinal fluid pressure transmission via cochlear aqueduct and endolymphatic sac, 273
Pharmacology, upper respiratory tract infection treatment (symposium), 412
Pharyngitis(itides), streptococcal, management controversies (symposium), 414
Pharynx(ges), hemorrhage induced by thorium dioxide, 437
Plain roentgenography, *see under* roentgenography
Pneumonia(s), in infants and children, treatment of (symposium), 431
Polyarteritis nodosa, head and neck manifestations, 187
Polychondritis(itides), relapsing, head and neck manifestations, 187
Polymyalgia rheumatica, head and neck manifestations, 187
Polymyositis, head and neck manifestations, 187
Potential(s), auditory middle latency responses in guinea pig, 116
cochlear, cis-dichlorodiammine platinum ototoxicity, 16
second-order neural responses after contralateral vestibular nerve section, 101
Preepiglottic space in laryngeal carcinoma spread, 81
Pressure(s), cerebrospinal fluid, transmission via cochlear aqueduct and endolymphatic sac, 273
eustachian tube pathophysiology, 123
Prophylaxis, in surgical procedures (symposium), 433

Radiography, plain roentgenography in unilateral vocal cord mobility evaluation, 92
Recurrent nerve, carotid-body-like tissue in, 334
Reiter's disease, head and neck manifestations, 187
Respiratory tract, upper, infections of, pharmacologic considerations in treatment, (symposium), 412
Retinopathy, diabetic, hearing losses in, 342

Roentgenography, plain, in unilateral vocal cord mobility evaluation, 92
Rubella virus, inner ear infections with, 347
Rubeola virus, inner ear infections with, 347

Sagittal plane, median, spatial attributes of stimulus frequency in, and sound localization, 165
Sarcoms(s), alveolar soft-part, of tongue, 363
Scleroderma, head and neck manifestations, 187
Sclerosteosis of temporal bone, 1
Screening, auditory, of children (letter), 371
Sensory coding, gustation in mammals (symposium), 234
Serous otitis media in children, bacteriologic features, 389
Sinusitis, acute, in adults (symposium), 422
and orbital complications in children (symposium), 424
Sjögren's syndrome, head and neck manifestations, 187
Skull, sclerosteosis of, 1
Smell, as active sensory process (symposium), 246
chemosensory disturbances of (symposium), 224
clinical evaluation of (symposium), 252
human uses of (symposium), 250
mechanisms of (symposium), 238
symposium on taste and (symposium), 223
Sore throat, management controversies (symposium), 414
Sound(s), localization of, and spatial attributes of stimulus frequency in median sagittal plane, 165
Spatial testing in taste evaluation (symposium), 257
Spiral ganglion, cytodifferentiation of hair cells, 375
Spondyloarthropathy(ies), seronegative, head and neck manifestations, 187
Stapedectomy, history of, 131
(letters), 217
Stimulus(i), binaural, spatial attributes of in median sagittal plane, and sound localization, 165
Streptococcal pharyngitis, management controversies (symposium), 414
Stria vascularis, volume of, and cochlear duct volume, 113
Stridor, from laryngeal coccidioidomycosis in child, 367
Surgery, draining syringe, 435
(letters), 445
prophylaxis in (symposium), 433
Syringe(s), draining, 435
(letters), 445
Systemic lupus erythematosus, head and neck manifestations, 187

Taste, as active sensory process (symposium), 246
chemosensory disturbances of (symposium), 224
in mammals (symposium), 234
scaling, clinical evaluation of (symposium), 237
symposium on smell and (symposium), 223
threshold clinical evaluation of (symposium), 257
Temporal bone, cochlear duct volume and stria vascularis volume, 113
high-resolution computed tomography of in evaluating middle ear disease, 107
meningioma of extending to neck, 297
sclerosteosis of, 1
Test(s), auditory screening of children (letter), 371
four-alternative auditory feature (FAAF), 342
Thorium dioxide, cervical granuloma induced by, 437
Thyroid nodule(s), solitary, diagnosis and management of malignant disease, 43
Tongue, alveolar soft-part sarcoma of, 363
Tonsil lymphocyte culture, interferon production by, 325
Toxicity, *see also* ototoxicity
Tracer(s), macromolecular, in mammalian cochlea, 400
Trachea, leiomyoma of, 144
Trigeminal nerve, function, evaluation of (symposium), 252
Tumor(s), intranasal granuloma faciale, 184
myositis, proliferative, in head and neck, 442
of neck, meningioma extending from temporal bone, 297
tracheal leiomyoma, 144

van Buchem's disease, 1
Varicella–zoster virus, inner ear infections with, 347
Vasculitis(itides), head and neck manifestations, 187
Ventricle(s), laryngeal, plain roentgenography in evaluating vocal cord dysfunction, 92
Vertigo, in predicting recovery from idiopathic sudden hearing loss, 161
Vestibular nerve, section of, contralateral second-order neural responses after, 101
neuritis of, 347
Vestibule, hair cells, aging of, 151
morphometry of pallid mutant mouse inner ear, 261
Virus(es), in adult epiglottitis, 393
inner ear infections with, 347
Vocal cord(s), dysfunction of, plain roentgenography in evaluation, 92

Xerostomia, 283

American Journal of Otolaryngology

Volume Contents for Volume 4

NUMBER 1, JANUARY–FEBRUARY 1983

ORIGINAL CONTRIBUTIONS

SCLEROSTEOSIS INVOLVING THE TEMPORAL BONE: CLINICAL AND RADIOLOGIC ASPECTS George T. Nager, Stuart A. Stein, John P. Dorst, Michael J. Holliday, David W. Kennedy, Karl W. Diehn, and Ethylin W. Jabs 1

OTOTOXICITY OF cis-DICHLORODIAMMINE PLATINUM (II) IN GUINEA PIGS Teruzo Konishi, Bhola N. Gupta, and Jiri Prazma 18

SUDDEN DEAFNESS ASSOCIATED WITH BILATERAL REISSNER'S MEMBRANE RUPTURES Ruth Gussen 27

HISTOCHEMICAL LOCALIZATION OF CARBONIC ANHYDRASE IN THE INNER EAR David J. Lim, Christos Karabinas, and Dennis R. Trune 33

CLINICAL REVIEW

THE SOLITARY THYROID NODULE: DIAGNOSIS AND MANAGEMENT OF MALIGNANT DISEASE William Lawson and Hugh F. Biller 43

CASE STUDIES

GLIOBLASTOMA MULTIFORME METASTATIC TO THE NECK Charles R. Potter, Raymond Kaufman, Robert B. Page, and Chan Chung 74

CORRESPONDENCE, ABSTRACTS, BOOK REVIEWS, NOTICES 77

NUMBER 2, MARCH–APRIL 1983

EDITORIAL

TRANSITION 79

ORIGINAL CONTRIBUTIONS

THE PREEPIGLOTTIC AND PARAGLOTTIC SPACES IN RELATION TO SPREAD OF CARCINOMA OF THE LARYNX K. H. Lam and J. Wong 81

PLAIN ROENTGENOGRAPHY IN THE EVALUATION OF UNILATERAL VOCAL CORD MOBILITY Ziad E. Deeb 92

SECOND-ORDER NEURAL RESPONSES AFTER CONTRALATERAL VESTIBULAR NERVE SECTIONING Richard W. Babin, Jai H. Ryu, and Brian F. McCabe 101

HIGH-RESOLUTION COMPUTED TOMOGRAPHY OF THE TEMPORAL BONE: ITS ROLE IN THE EVALUATION OF MIDDLE EAR DISEASE Chat Virapongse, Mohammad Sarwar, E. Leon Kier, and Clarence T. Sasaki 107

THE RELATIONSHIP OF STRIA VASCULARIS VOLUME AND COCHLEAR DUCT VOLUME David M. Vernick 113

AUDITORY MIDDLE LATENCY RESPONSES IN THE GUINEA PIG Therese J. McGee, Özcan Özdamar, and Nina Kraus 116

EUSTACHIAN TUBE PATHOPHYSIOLOGY Bengt Magnuson 123

HISTORY

HISTORY OF STAPEDECTOMY Allen D. Hillel 131

MEDICAL INTELLIGENCE

CONTINUOUS PORTABLE VACUUM DRAINAGE OF AURICULAR HEMATOMAS I. Eliachar, A. Golz, H. Z. Joachims, and M. Goldsher 141

CASE STUDIES

LEIOMYOMA OF THE TRACHEA Karl T. K. Chen 144

CORRESPONDENCE, ABSTRACTS, BOOK REVIEWS, NOTICES

CORRESPONDENCE, 147; ABSTRACTS, 147; BOOK REVIEWS, 149; NOTICES, 150 147

NUMBER 3, MAY–JUNE 1983

ORIGINAL CONTRIBUTIONS

THE AGING VESTIBULAR HAIR CELL Matti Anniko 151

PREDICTING RECOVERY FROM IDIOPATHIC SUDDEN HEARING LOSS Nan Laird and Willliam R. Wilson 161

THE SPATIAL ATTRIBUTES OF STIMULUS FREQUENCY IN THE MEDIAN SAGITTAL PLANE AND THEIR ROLE IN SOUND LOCALIZATION Robert A. Butler and Charles C. Helwig 165

AMINOGLYCOSIDE OTOTOXICITY IN THE CHICK (*GALLUS DOMESTICUS*) INNER EAR: I. THE EFFECTS OF KANAMYCIN AND NETILMICIN ON THE BASILAR PAPILLA Cesar D. Fermin and Makoto Igarashi 174

CASE STUDIES

INTRANASAL GRANULOMA FACIALE Douglas K. Holmes and William R. Panje 184

CLINICAL REVIEW

HEAD AND NECK MANIFESTATIONS OF AUTOIMMUNE DISEASE Stephen M. Campbell, Anthony Montanaro, and Emil J. Bardana 187

SYMPOSIUM ON TASTE AND SMELL

INTRODUCTION Edward L. Applebaum 223

CLINICAL PROBLEMS IN CHEMOSENSORY DISTURBANCES James B. Snow, Jr. 224

REGENERATION IN THE OLFACTORY SYSTEM OF VERTEBRATES Pasquale P. C. Graziadei and Ariella G. Monti Graziadei 228

THE GUSTATORY SYSTEM IN MAMMALS Ralph Norgren 234

INITIAL MECHANISMS BASIC TO OLFACTORY PERCEPTION Maxwell M. Mozell, David E. Hornung, Donald A. Leopold, and Steven L. Youngentob 238

TASTING AND SMELLING AS ACTIVE, EXPLORATORY SENSORY PROCESSES Bruce P. Halpern 246

THE HUMAN USES OF OLFACTION Trygg Engen 250

CLINICAL EVALUATION OF OLFACTION William S. Cain, Janneane Gent, Frank A. Catalanotto, and Ronald B. Goodspeed 252

CLINICAL EVALUATION OF TASTE Linda M. Bartoshuk, Janneane Gent, Frank A. Catalanotto, and Ronald B. Goodspeed 257

ORIGINAL CONTRIBUTIONS

A MORPHOMETRIC STUDY OF THE PALLID MUTANT MOUSE INNER EAR Dennis R. Trune and David J. Lim 261

TRANSMISSION OF CEREBROSPINAL FLUID PRESSURE VIA THE COCHLEAR AQUEDUCT AND ENDOLYMPHATIC SAC Björn I. R. Carlborg and Joseph C. Farmer, Jr. 273

CLINICAL REVIEW

XEROSTOMIA: DIAGNOSIS AND TREATMENT Mahvash Navazesh and Irwin I. Ship 283

CORRESPONDENCE, ABSTRACTS, BOOK REVIEWS, NOTICES 293

NUMBER 5, SEPTEMBER–OCTOBER 1983

ORIGINAL CONTRIBUTIONS

MENINGIOMAS INVADING THE TEMPORAL BONE WITH EXTENSION TO THE NECK George T. Nager, James Heroy, and Mark Hoeplinger 297

HUMAN INTERFERON PRODUCTION IN TONSIL AND ADENOID TISSUE CULTURES William J. Richtsmeier 325

CAROTID-BODY-LIKE TISSUE WITHIN THE RECURRENT LARYNGEAL NERVE: AN ENDONEURAL CHEMOSENSITIVE MICRO-ORGAN? Bengt Carlsöö, Åke Dahlqvist, Siw Domeij, Sten Hellström, Herbert H. Dedo, and Krzysztof Izdebski 334

HEARING LOSS IN PATIENTS WITH DIABETIC RETINOPATHY Julian J. Miller, Lynne Beck, Adrian Davis, Diane E. Jones, and Alun B. Thomas 342

CLINICAL REVIEW

VIRAL INFECTIONS OF THE INNER EAR: CLINICAL, VIROLOGIC, AND PATHOLOGIC STUDIES IN HUMANS AND ANIMALS Larry E. Davis and Lars-Göran Johnsson 347

CASE STUDIES

ALVEOLAR SOFT PART SARCOMA OF THE TONGUE Victoria van B. King and Willard E. Fee, Jr. 363

UPPER AIRWAY OBSTRUCTION DUE TO LARYNGEAL COCCIDIOIDOMUYCOSIS IN A 5-YEAR-OLD CHILD William E. Benitz, John S. Bradley, Willard E. Fee, Jr., and James C. Loomis 367

CORRESPONDENCE, ABSTRACTS, BOOK REVIEWS, NOTICES

CORRESPONDENCE, 371; ABSTRACTS, 371; BOOK REVIEW, 373; NOTICE, 374. 371

NUMBER 6, NOVEMBER–DECEMBER 1983

ORIGINAL CONTRIBUTIONS

CYTODIFFERENTIATION OF COCHLEAR HAIR CELLS Matti Anniko 375

AEROBIC AND ANAEROBIC BACTERIOLOGIC FEATURES OF SEROUS OTITIS MEDIA IN CHILDREN Itzhak Brook, Paula Yocum, Kiran Shah, Bruce Feldman, and Stephen Epstein 389

ADULT EPIGLOTTITIS Thomas Musloe and Marshall Strome 393

BASIC SCIENCE REVIEW

MACROMOLECULAR TRACERS IN THE MAMMALIAN COCHLEA Arndt J. Duvall, and Anne Klinkner 400

SYMPOSIUM ON OTOLARYNGOLOGIC INFECTIONS

INTRODUCTION Charles D. Bluestone 411

PHARMACOLOGIC CONSIDERATIONS IN THE TREATMENT OF UPPER RESPIRATORY TRACT INFECTIONS John D. Nelson 412

CONTROVERSIES IN THE MANAGEMENT OF STREPTOCOCCAL PHARYNGITIS Sydney S. Gellis 414

CERVICAL ADENITIS IN CHILDREN David W. Teele 416

DENTAL PERIODONTAL AND ORAL MUCOSAL INFECTIONS John D. Nelson 418

DEEP NECK INFECTION George A. Gates 420

ACUTE SINUSITIS IN ADULTS Jack M. Gwaltney 422

ACUTE SINUSITIS AND ORBITAL COMPLICATIONS IN CHILDREN Ellen R. Wald 424

CHRONIC SUPPURATIVE OTITIS MEDIA AND INFECTED CHOLESTEATOMA Charles D. Bluestone 428

TREATMENT OF PNEUMONIAS IN INFANTS AND CHILDREN Jerome O. Klein 431

PROPHYLAXIS IN SURGICAL PROCEDURES Jonas T. Johnson 433

SURGICAL TECHNIQUES

THE DRAINING SYRINGE: FURTHER USES IN HEAD AND NECK SURGERY Lior Rosenberg, Tovi Ferit, and Abraham Baruchin 435

CASE STUDIES

THORIUM-DIOXIDE–INDUCED PHARYNGEAL HEMORRHAGE Robert B. Stanley, Jr. 437

PROLIFERATIVE MYOSITIS IN THE HEAD AND NECK J. Oliver Donegan, Theodore H. Miller, and John A. Wirman 442

CORRESPONDENCE, ABSTRACTS, BOOK REVIEWS, NOTICES

CORRESPONDENCE, 445; ABSTRACTS, 445; BOOK REVIEWS, 448; NOTICES, 449 445
